I can't believe that there aren't any comments so far for this truly amazing tune, and only 8 voters?! After hearing it in a few mixes, I personally had the unexpected pleasure of witnessing it played out at Optimo in Glasgow (I can't remember whether it was Twitch or Wilkes who played it (they take turns DJing on the night)). I just remember being completely ecstatic and going mental after it came rushing out over the speakers at the Sub Club. It was the first time that I'd been to Optimo in years, so I don't know if they'd been playing it regularly, but all I can say is, it's a tune that can only *\*really\** be appreciated when it's heard blazing over a PA system - truly amazing. As further testimony, here's a list of respected DJs that I've heard playing it (in mixes, live or otherwise): Optimo, I-F, Loud-E, and G-String. Why was this tune not on top of every chart everywhere?!
